

Classical vs Clinical Homeopathy

[Read more](#)

Treatment Approach

Classical :

Individualized, holistic care

Clinical :

Disease-centered, specific treatment

dr-shilpi-verma

Remedy Selection

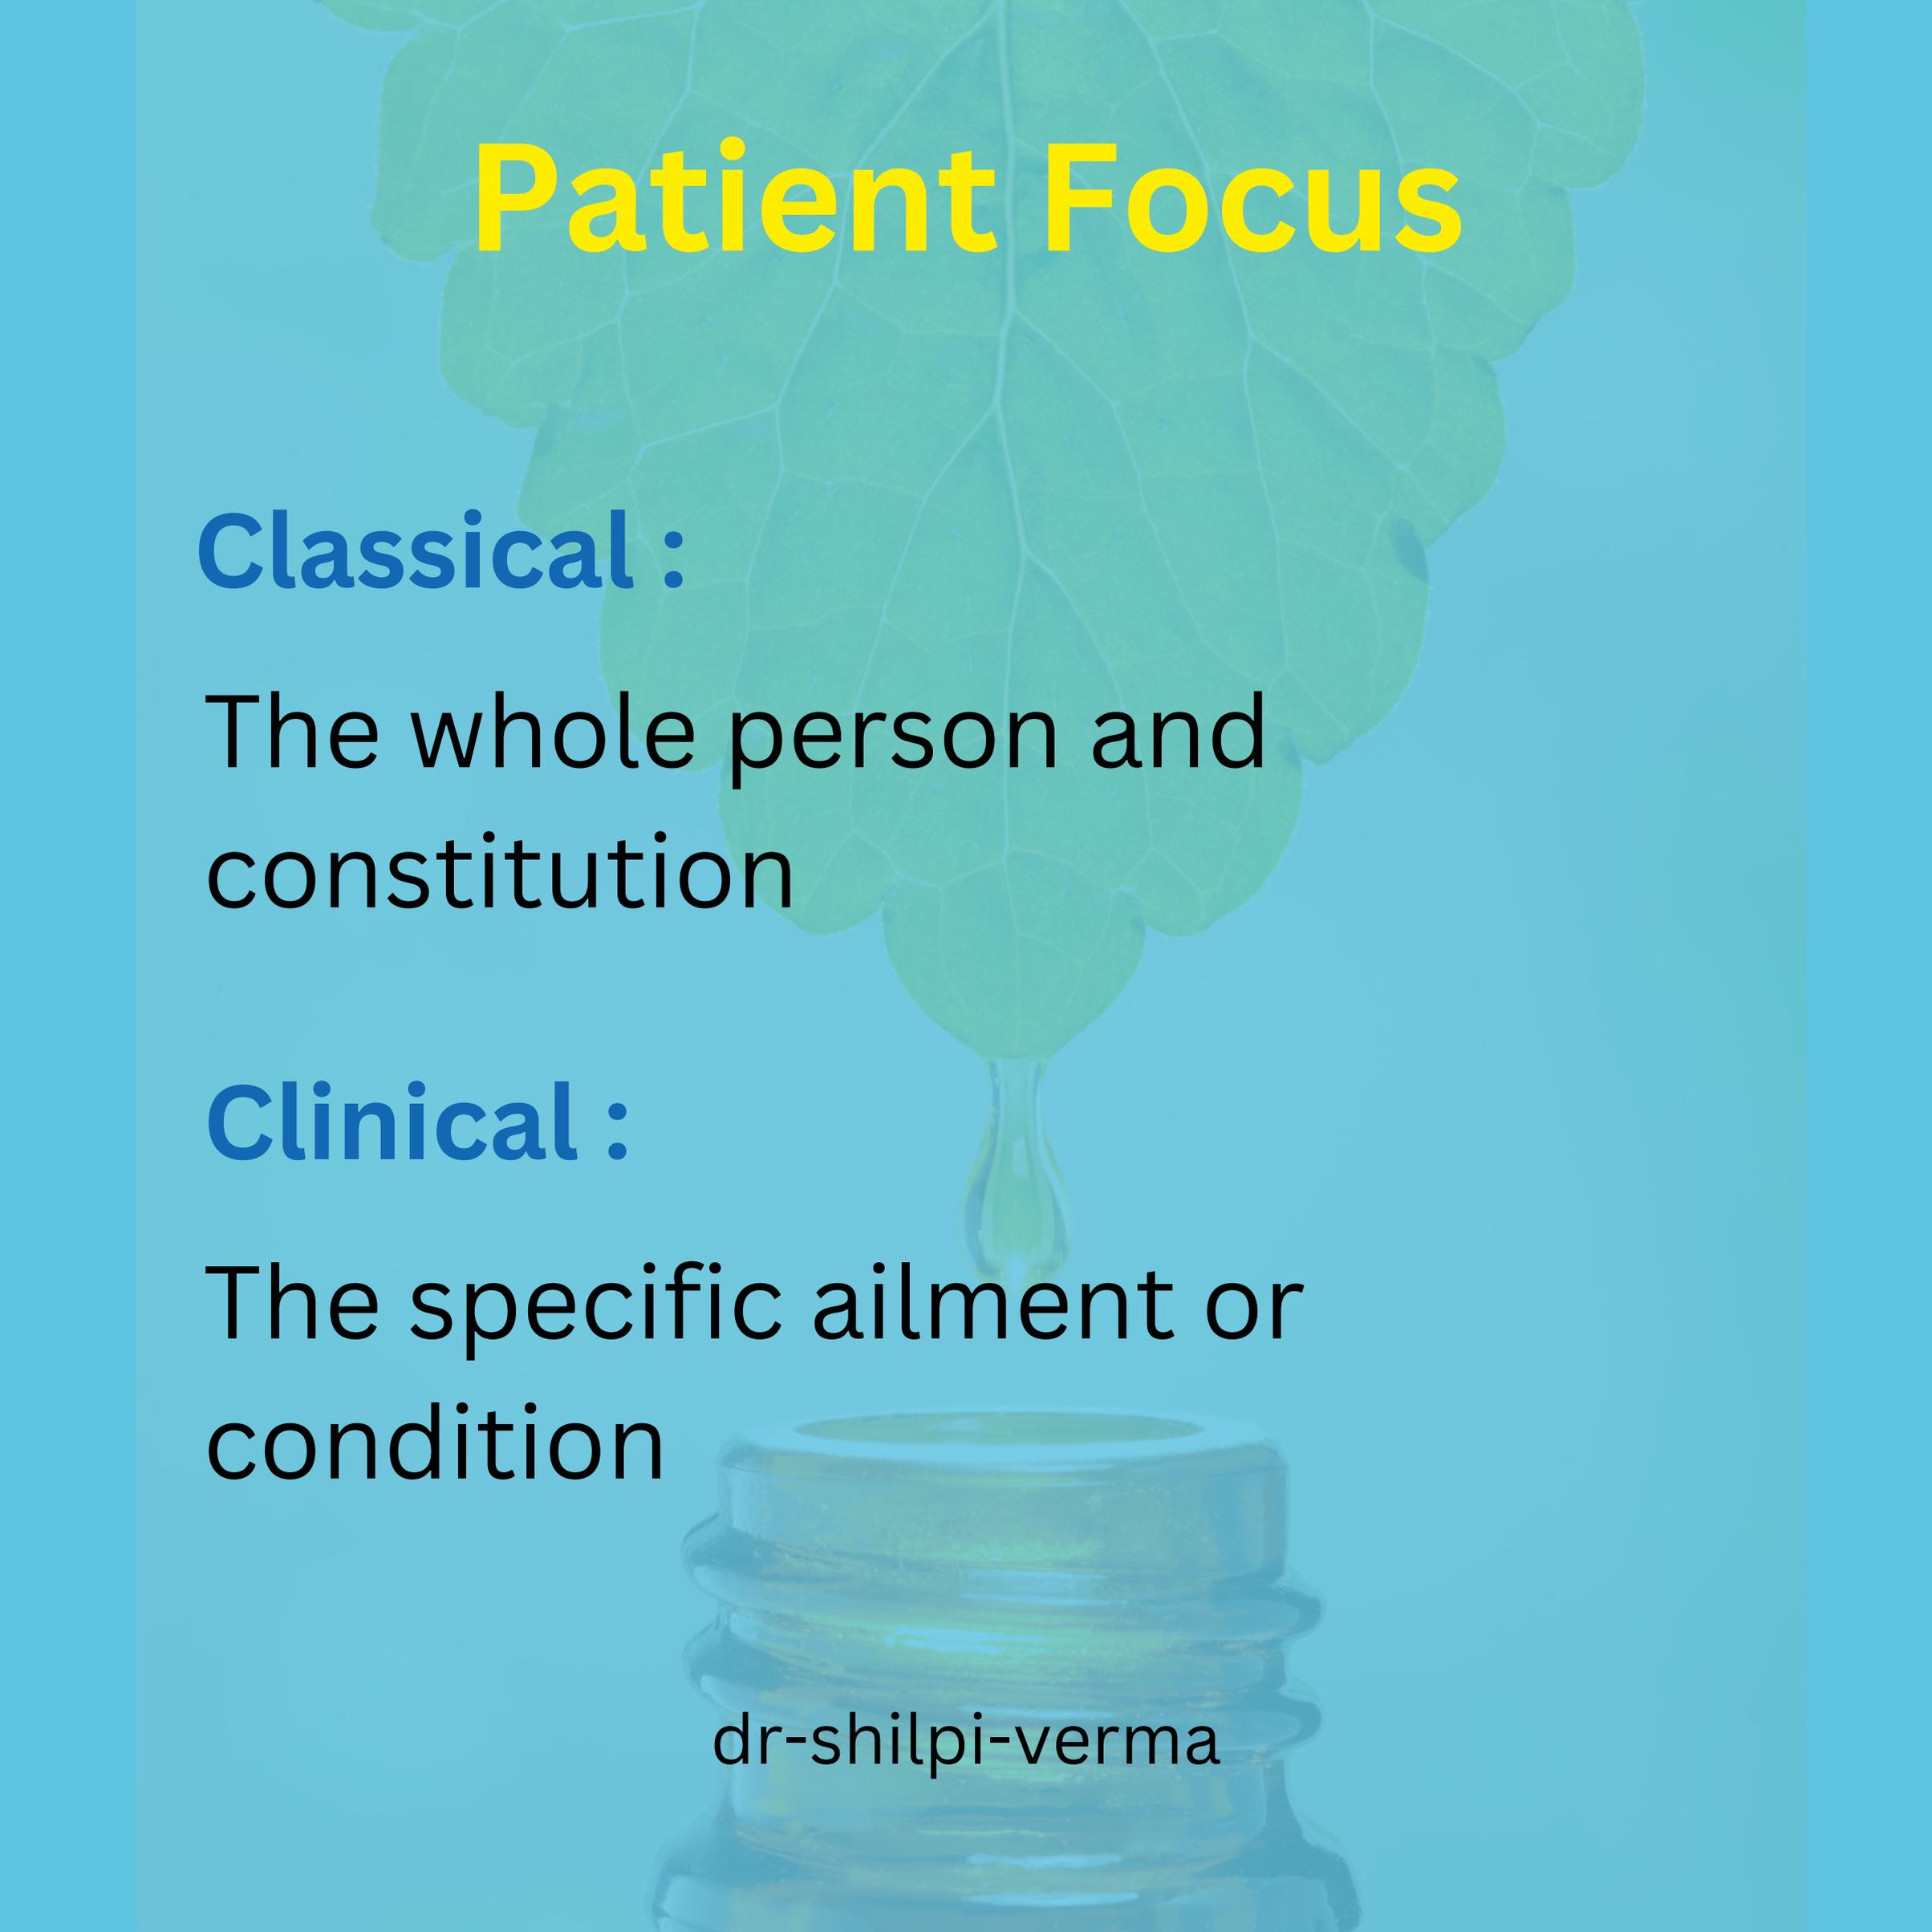

Classical :

Single remedy based on totality

Clinical :

May use standardized protocols

Patient Focus

Classical :

The whole person and constitution

Clinical :

The specific ailment or condition

dr-shilpi-verma

Treatment Duration

A large green leaf with a water droplet falling from it, positioned above a glass bottle with a white cap. The background is a light blue gradient.

Classical :

Long-term, addressing root causes

Clinical :

Short-term, focused on symptom relief

Customization

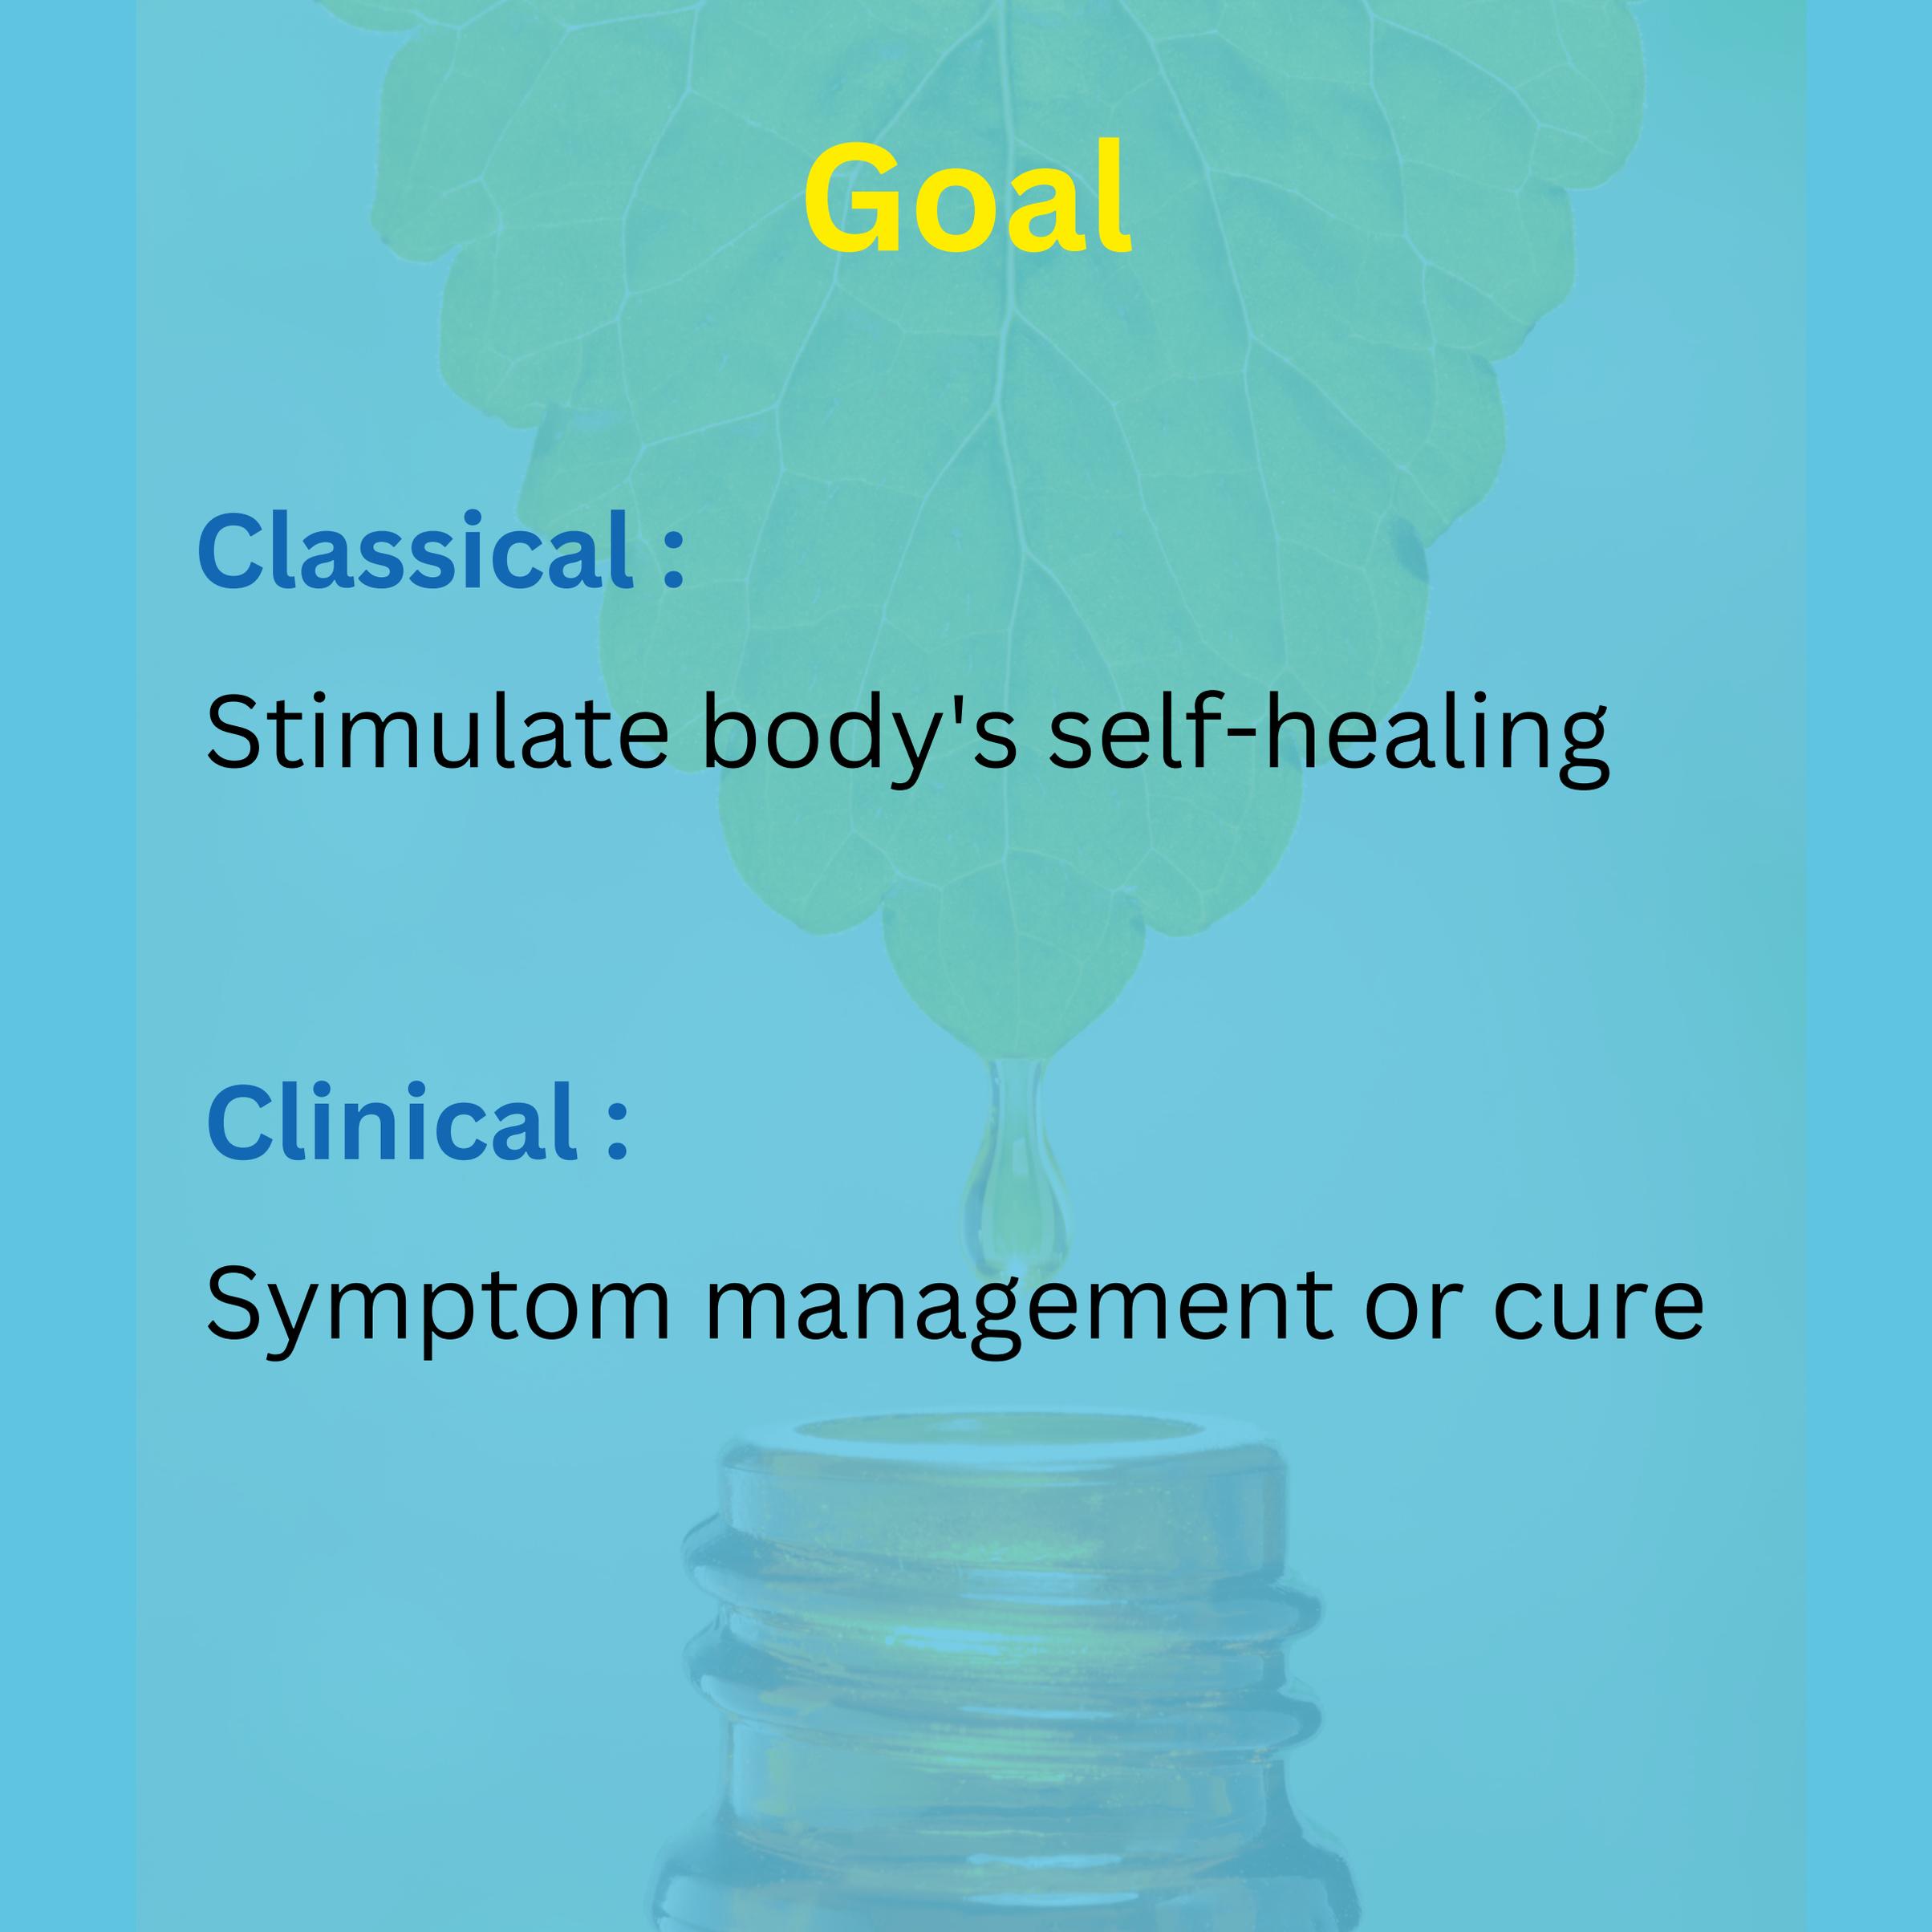

Classical :

Highly personalized

Clinical :

May use established remedies

Goal

Classical :

Stimulate body's self-healing

Clinical :

Symptom management or cure

Follow-up

Classical :

Ongoing, comprehensive

Clinical :

May not require extensive follow-up
